

# Early Detection is the Key to Breast Health

**\$25 Discount on Breast Thermography for July Only**

Come and learn all the details about thermography. Thermography does not radiate, compress or damage your DNA. It is non-invasive, pain free and can be used adjunct with mammography.

Thermography can be used for early detection of many imbalances including:

- Breast Imbalances
- Pre-Stroke
- Heart Disease
- Migraine cause and much more.....
- Fibromyalgia
- Back Pain
- Ruptured Disk
- Thrombosis
- Periodontal Disease
- Scoliosis
- Muscle Tears
- Skin Cancer

**All attendees will receive one complementary face thermography. Please do a great favor to your friends, tell them about thermography, so they can also get this one time offer.**

The talk will be held  
On: July 10<sup>th</sup> at 6 p.m.  
3541 Ocean View Blvd.  
Glendale, Ca  
818-957-7380
